For what it may be worth:
You said that there was another corner about
2 or 3 chains north of the Candle corner?

The last corner (orig.) that Candle found was the
¼ cor. of secs. 2+35 on the north bdy.
Maybe he or Meldrum went wild from this
¼ corner on east and maybe this could have
happened.
If you haven't already you might look

If these other corners can be found
and identified you may
have a HIATUS
