

County Surveyor
Allan E. Duncan
4206 Cypress St.
Tillamook, OR, 97141

26 Apr 1989

During survey B-1348 I found the original 2" iron pipe for the Initial Point of Wheeler lying loose on the ground where John Carlich, CS, had left it, south of his new monument.

I set found 2" iron pipe for a witness to said initial point, 0.6 ft. north and filled the area around with gravel to help stabilize the fill slope upon which the Brass Cap monument sets.

Please make note of this in your Rewitness Book.

This is in Sec 3, T2N, R10W, W.M.

Sincerely,

Harvey L. Barber
