I found a 28" spruce burned and in line with small dike between
Thayer's property and Boss Turner old tract, and approx 20 feet
north of large dike on Tillamook river. The people living on
Turner place claim to have seen Mark B.T. on the S.E. face of
this tree, not knowing for survey weather this tree was meant for
the 1/2 B.T. I did not reset this cor. It may be a B.T. to the cor
between Thayer and people east of them. Further investigation
may prove which B.T. this is. Nov 4, 1932.
