SURVEY FOR THE OREGON STATE BOARD OF FORESTRY

January 10, 1951

Restoration of the 1/4 section corner to sections 15 & 21, Township 2 North, Range 6 West, W.M., Tillamook & Washington Counties, Oregon.

The point for corner determined by the remains of the original bearing trees:

A fir stump, 31 inches in diam., bears S 24° E, a distance of 35.0 ft. (56 lbs). Scribe marks: ½ S exposed. (The original notes call this bearing S 36° E, believe this to be an error in reading the compass).

At the corner point:

Set a 1½ inch iron pipe, 3 feet long, filled with charcoal, with an Oregon State Board of Forestry bronze cap stamped: ½ S 16 Sec. 1951 199.

From which:

A fir stump, 23 inches in diam., bears S 84° W, a distance of 19.9 feet, scribed: ½ S 21 199 M.

A noble fir sap pole, 46 inches in diam., bears S 70° 30' E, a distance of 55 feet.

Placed a metal location post on a 46 inch hemlock snag and marked it Sec. 16 T52N R6W ½ Cor. 35.0 ft. S 84° E.

The above work done by Ron Davis, Transitman; Richard Morris and Bill Kleeman, Chainsmen; and John McWade, Flagman; under my direction.

Lyle E. Beyers
Forest Engineer
