NOTE 1: May 15, 1957, with Rob't L. McCullough, at the
corner to sections 7, 8, 17 & 18, T3N, R6W, W.I., I find
original B.T.'s as follows:

A fir stump 36" diameter bears N 47° E 32.0 feet,
the blaze scars very prominent, I do not chop them out.

A hemlock stump 18" diameter bears S 47° E 14.5 feet.
A portion of the letter "H", the figure "6", and a portion
of the letters "HT" are visible.

A hemlock stump 16" diameter bears N 47° W 35.6 feet.
The blazes are prominent, but the faces are rolled out
and no scribing is visible.

A remnant of a small hemlock stump bears S 90° W 4.0 ft.
For the corner I set a 14" galvanized iron pipe 36" long; 10"
in the ground in a notch cut in the side of a log.

NOTE 2: At the ¼ corner between sections 8 & 17, T3N,
R6W, W.I. I find a galvanized iron pipe set by this surveyor
in 1936 (see Note 6 of Survey to Isolate NE 1/4 of 38, T3N,
R6W, August-December, 1936)

NOTE 3: For the ¼ corner between sections 17 & 18, T3N,
R6W, I set a 14" diameter galvanized iron pipe 36" long 20"
in a rounded stone from which:

A fir stump 30" diameter bears S 82° W 5.6 feet marked
by B.T. 518 232.

A fir stump 30" diameter bears N 11° E 22.8 feet
marked by B.T.

This point is on the top of a narrow rocky ridge, course
E-W which ends in a bluff 20 feet west of the corner. It is
100 feet north of a small branch filled with ruble from
logging.

NOTE 4: May 24, 1957, at the intersection of the center-
lines of section 17, T3N, R6W, W.I. I set a 14" galvanized
iron pipe 36" long 24" in the ground, from which:

A hemlock 14" diameter bears N 55° E 74.5 feet
marked by 1957 322 B.T.

There are no trees west of the corner large enough to bear a
mark.

NOTE 5: May 9, 1957, at the ¼ corner between sections
16 & 17, T3N, R6W, W.I. I find the original stone marked 1
beside it I find a scribed post 4" x 4" x 4' tall and a gal-
vanized iron pipe bearing an Oregon State Board of Forestry
brass cap from which original B.T.'s bear as follows:

A fir stump 42" diameter bears S 60° W (not SE as
given in the notes furnished me) 9.7 feet marked 1 8,
the balance of the scribing not being chopped clear.

A fir stump 42" diameter bears N 50° E 12.5 feet
bearing a scar which has not been chopped out.

An additional B.T. stump NW was scribed by S17 B.T. 193.
