NOTE 12: May 23, 1957 at the east corner of section 24, T32 N, R7W, W.M. I find an OSEF iron pipe and an original BT northeast. A new BT by H2591 stands 25 feet west.

NOTE 13: May 23, 1957 at the corner between sections 19 & 20, T32 N, R6W, W.M. I find the original tree which was marked for the corner monument. The scribing is no longer legible.

A broken stump bears N 34° E 14 feet on which only the letter "M" of the original scribing remains legible.

The stump of the hemlock 3 75° E is completely crushed under a log.

An OSEF pipe is set 5 feet east of the tree marked NH 1955 and 5 ft W. New BT's east and northeast are scribed by H2591.

NOTE 14: May 30, 1957 at the corner between sections 19 & 20, T32 N, R6W, W.M. I find the original larch BT. I chop out a portion of the blaze revealing portions of the letters "M" and "W." I do not disturb the balance of the blaze.

The fir BT is uprooted and gone and is unidentifiable among the maze of old growth blowdown at the site of the corner.

3 20° W. 13.8 feet from the larch BT I place a 4" square hemlock post 8 feet long in a mound of stones and nailed securely to a 40" hemlock log overhead. I mark the post 1/4 S19 on the north and 1/4 S30 on the south from which:

A fir 20" diameter bears S 48° W 36.5 feet (47 feet up a 67° slope) marked 1 S19 BT.

NOTE 15: May 30, 1957 at the corner between sections 19 & 19, T32 N, R6W, W.M. I find a 5" diameter hub with tack from which original BT's bear as follows:

A fir 36" diameter bears S 32° E 12.5 feet.

A fir 36" diameter bears S 31° W 19.6 feet.

The BT's are in such an advanced state of deterioration that I mark new BT's as follows:

A hemlock 10" diameter bears N 64° W 44.6 feet marked 1 S19 BT 322.

A hemlock 10" diameter bears S 22° W 64.0 feet marked 1 S19 1957 BT.

The surveyor states that the corner is on the summit of a ridge bearing E-W. The bearing of the ridge is actually N 56° W - 3 20° E.

NOTE 16: At the intersection of the centerlines of section 19, T32 N, R6W, W.M. I set a 2" iron pipe 20' long from which:

A burned stump 36" diameter bears N 69° E 14.5 feet marked 1 S19 BT 322.

A stump 36" diameter bears E 20° W 50.8 feet marked 1 S19 BT.
