EVALUATION AND RESTORATION OF LAND SECTION CORNERS

T.35.R.9W

\[ \frac{1}{4} \]
3 2
Original Monument
4" x 4" post

Original Witnesses:
6" fir, S.15°W., 21\frac{1}{2} Lks. Mkd. \( \frac{1}{4} \) S. BT
16" alder, S.70°30'E., 26 Lks. Mk'd. \( \frac{1}{4} \) S. BT

The post is gone.
I found 19" alder, S.70°30'E., 16\frac{1}{2} ft. with visible marks \( \frac{1}{4} \) SBT.
I found 6" rotted fir log lying upon the ground, S.15°W., 114 ft.
to its base. A snag had fallen many years ago knocking this BT to
the ground. All marks are rotted off. I set 1" yellow pipe 36"
above ground. This corner is located on a 50% S.E. slope. A
high ridge running E.-W. is 6 chains to the north.

I marked 2 new BTs:

21" fir, S.26°W., 34 ft. Mk'd. \( \frac{1}{4} \) S.3BT CS
20" fir, S.4°E., 10\frac{1}{2} ft. Mk'd. \( \frac{1}{4} \) S2BT CS
