Reestablishment of 1/4 corner common to Section 2 and 3, T2S, E10W, W. M.

Original corner was set by Samuel D. Snowden in 1857, 40.00 chains South on a true line between sections 2 and 3. He set "1/4 section post from which bears:
20" Hemlock S 22° W 25 TKS
28" Hemlock S 40° E 88 TKS"

On May 16, 1968 I found a scribed face on a Hemlock stump, which was cut in 1963 and which was under 103 years of overgrowth, reading "1/40". The scribing faces N 50° W and is 9½ inches from the center of the tree. From this information it was determined that this tree was the 28" Hemlock B. T. quoted above.

From this original bearing tree I set a 3/4" iron pipe with 3 inch brass cap for the 1/4 corner. Bearing trees are as follows:
10" Hemlock stump S 40° W 58.0 feet (1857 BT)
60" Douglas fir stump S 40° W 10.5 feet (1968 BT)
