EVALUATION AND RESTORATION OF LAND SECTION CORNERS

One-quarter corner common to sections 29-32, W.M., Tillamook County, Oregon

ORIGINAL: Henry Heldrum, September 3, 1878

Set a post (fir), 4 1/2 feet long, 4 inches diameter, for ¼ section corner, from which

A fir, 30" diameter, bears North 67° West, 20 lks. distance,
A fir, 40" diameter, bears South 60° East, 43 lks. distance.

FOUND:

30" snag, North 67° west, 20 lks (as Orig.) with mks. rotted off,
40" snag, South 60° East 43 lks (as orig.) with mks. burnt off,
From this point to the West 243 feet is an original line blaze on a slab that had fallen off a snag.
To the East 130 feet is an original blaze on a pitch slab of a snag, also, an original line blaze on a snag approximately ¼ mile to the east. The corner point is ¼ mile east of the N-S Section Line. With this evidence I set corner.

RESTORED:

I set 1" pipe 30" above the ground. A ridgetop running E-W is 40 feet to the South.
I mark 2 new BTs:

16" Alder, South 23°30'E., 33 1/2 feet mks. 4S32BT
12" Spruce, North 2° E., 9 feet mks. 2S29BT

RESTORED BY:

Leonard Whitmore, Tillamook County Deputy Surveyor

WITNESSED BY:

Wendel Jones
M. Whitmore

DATED: 3-28-67
COUNTY SURVEYOR'S RECORD, TILLAMOOK COUNTY, OREGON
