History of original corner establishment:

Corner was set originally by Caudle in 1880. He set a 10" x 8" stone and built a stone mound. In 1899 County Surveyor set a post and scribed 2 Alder B.T.S. Markham has tied to this corner but there is no record as to who set the axle.

Description of corner evidence found:

A 1½" axle driven beside a 12" x 10" x 8" stone in a stone mound. Forest Service location marker on fence post. Monument approx 30 feet east of Wolf Creek at the end of an old fence running east. Caudle makes a creek call 1.5 chains west of corner but ground is flat and creek could have changed course.

Description of monument and accessories I established to perpetuate the original location of this corner:

A 2" x 30" pipe with brass cap marked:

<table>
