CERTIFIED RECORD OF LAND CORNER MONUMENTATION

History of original corner establishment:

This corner was originally established by John Helder in 1872. At that time he set a post and scribed a 6" Spruce to N.68°E. 8 links and 36" Spruce S.85°W. 116 links.

(Contract Survey)

Description of corner evidence found:

In 1890 the G.L.O. ran North through T.6S., R.10W., and set closing corners for the N.E. and N.W. corners of Section 6. This would make this ½ corner common to Section 31 only. In 1898 the County Surveyor found the corner and the 36" Spruce had blown down. In 1947, Wilbur Markham set a 7/8" iron pipe "½ Corner on the TWP line N.8°19’. W. 2885 ft.” from which a 60" Spruce growing as a twin with a 50" Spruce bears N.35°W., 102 feet.

I could find no evidence of the original corner on its accessories. I did find Markham’s BT but no pipe.

Description of monument and accessories I established to perpetuate the original location of this corner:

I set a 2"x36" iron pipe with a flared bottom and a brass cap riveted to the top marked:

T.5S., R.9W.
SC
¾ S 31
1971
0.1.5, 816

Based on single proportionate measurement.

I scribed the following BT’s and placed tags and painted a white band on them:

- 60" Spruce N.280°E. 746 ft., mld. "½ S31SC BT"
- 41" Spruce N.68°E. 432 ft., mld. "½ S31SC BT"

The point established from Markham’s twin BT bears S.82°-56°-45°E. 224.34 feet.

I erected a small stone mound around the brass cap and set a 6 foot steel post with an "Attention" sign 3 feet West.

Registered Oregon Land Surveyor

M. Yinger

Set this 23rd day of September, 1971
