CERTIFIED RECORD OF LAND CORNER MONUMENTATION

History of original corner establishment:

In the original contract survey in 1882, the surveyor reported he could not run the Section Line between 4 & 5 westerly to the corner to Sec 14, 5, 8 & 9 because of a swamp. He set a post 4ft. long & 6" in diameter 12" in ground marked 4S on north face, from which an Elder 6" in diameter bears W 1/2° E 27 ft. marked 3 SBT & on Elder 5" in Diameter bears S 15° W 515 ft. marked 4 SBT, for the 1/4 corner. He then ran back to the corner to Section 39, 9 & 10.

In Book 39, Sec 4 Surveyor ran the line from the center west 1/6 of Section 4 to the W 1/4 on the South Line of Section 4. He then ran east from the South line of Sec 4 to the 1/4 Section Line (48 chains) and was 3.12 chains north of the 1/4 corner post indicating the 1/4 corner post was 5 chains plus South of true corner which was set in Sec 48. They ran North from the 1/4 corner on the South Line of Section 4 to the W 1/4 on the North Line of Sec 4 & found the Distance to be 520.5 chains approximately 3 chains less than normal. (1887) In 1937, the EW on the South Line of Sec 4 was found by W. Anderson, which was by all information available original.

Description of corner evidence found:

Using Proportional measurement & line extended from the SE corner of Sec 4. Through the Expert on the South Line of Sec 4, the 1/4 of said section was set. This position checks reasonably well with the old records. The calculated distance between the center west 1/6 & the W 1/4 on the South Line of Sec 4 checks with W 1/4 distance within 2 feet.

No evidence of original corner found.

Description of monument and accessories I established to perpetuate the original location of this corner:

Set 2"x3" galvanized iron pipe flared at the bottom and a brass cap riveted on top flush with the ground.

Set steel post with Forest Service Sign 10 ft. North of monument.

Stamp: dist

New bearing trees as follows:

40° Spruce scribed " 4 SBT " N 33° E 143.16 ft.
9° Spruce scribed " 4 SBT " S 15° W 215.04 ft.

Placed USFS bearing tree signs on each tree breast high & facing monument.
