History of original corner establishment:

A 1/2" iron pipe was set by W. Anderson Tillamook County Surveyor in May, 1937, County Survey A-239. On the survey plot, he did not specifically call this iron pipe the SE1/4 of Sec 4 although he chained 1354.4 ft N0°15'W from the E1/4 on the South line of Sec 4 and proportioned the distance from said iron pipe to a 2" iron pipe indicated as being the SW1/4 of Sec 4 to set the center South line of Sec 4. This iron pipe was not accepted as the true corner because the prescribed method of subdividing each section was apparently not followed in Anderson's survey. He does not show the locations of monuments on the North or East boundaries of the SE1/4 of Section 4.

Description of corner evidence found:

1/2" IR set by Anderson was found N 75°42'15"E 74.15 ft
and accepted as stated above.

Description of monument and accessories established to perpetuate the original location of this corner:

Set 2" x 30" galvanized iron pipe flagged at the top
and a brass cap riveted on top, extending 4" above the ground.

Set steel posts with Forest Service signs
5.0 ft West and 5.0 ft North of Monument.

New bearing trees as follows:

18" Fir scribed " SE1/4 54 BT N 27°30' W 23.54 ft.
13" Fir scribed " SE1/4 54 BT N 57°20' E 47.48 ft.

Placed USFS Bearing tree signs on each tree breast high & facing monument.

Office of County Surveyor, County of Tillamook
State of Oregon, I hereby certify that the within instrument was filed in this office for record on the 26th day of 1953, at 9:00 a.m., (signed)
