The purpose of this survey was to establish the boundary of Nehalem Bay State Park located in the NE1/4, NE1/4 Section 32, T3N, R10W, W.M.

Control was established using a Jena one-minute theodolite and a McHenry "Mac II-H" electronic distance measuring instrument.

The bearing basis was from an Oregon State Highway Department plat, County Survey No. B-514, dated January 1963 and stamped by John A. Bond, resident engineer. The bearings are "Grid", north zone, and the theta angle is 2026.13".

Corner Information
Var. 214°

Section Corner 28, 29, 32, and 33

Tillamook County Rewitness December 1971:

Found 2" iron pipe with brass cap still in position.
Brass cap marked "T3NR10W-S29,S28,S32,S33-RS 793-1969".
