
In County Survey Book 3, Page 302, C. G. Collard reports: "On May 8, 1969, I found the 16" Hemlock, bearing N 53° W (now a rotted stump) with incomplete scribe marks visible. The 16" Hemlock bearing N 38° E and 40" Hemlock (also rotted stumps) are properly located in relation to the corner, but no face or marks are found. From these original bearing trees I set a 3/4 iron pipe with 3 inch brass cap for the corner to Sections 34 and 35, T2S, R10W, on the Township line between T2S and T3S, R10W, W.M. I marked new bearing trees as follows: 14" Hemlock bearing N44° E 52.1 feet, scribed "BT-S35-T2S". 12" Spruce bearing N 43° W 14.8 feet, scribed "BT-S34_376" 10" Spruce bearing S 46° W 14.3 feet, scribed "BT-S3-T3S,R10W"."

Description of monument and accessories I established to perpetuate the original location of this corner:

I, Karl F. Foeste, hereby certify that I witnessed the above corner as herein described in October, 1976.

Witnesses:
Harold A. Englert
Allen F. Hofmanna

Recorded in the office of Surveyor, County of Tillamook
State of Oregon, I hereby certify that the within instrument was filed in this office for record on the 5th day of December, 1976

KARL F. FOESTE, Registered Professional Land Surveyor of the State of Oregon
