I found a 2" aluminum pipe with a 3" U.S.D.A. aluminum cap (see Tillamook County Surveyors map #8-1024). Located near the top of a recent slide area.

History of found monument

I found this monument to be as reported on Tillamook County Surveyors map #8-1024 and its accessories found and/or set at that time to now be as follows:

(Original B.T.) 3 1/2" Alder N.35'E. 21 lks, reported on map B-1024 as a rotten alder stub N.27'E 16.9'; (Now gone).

(Original B.T.) 4" Alder S.13'E. 37 lks, reported on map B-1024 as a rotten 14" alder S.13'E 19.1'; (Found, now 15" stump 6' high).

(Map B-1024) 14" Maple N.59'E. 35.0'; (Found, now 16' maple stump with overgrown face).

(Map B-1024) 12" Alder S.84'E. 29.9'; (Found, now 14" alder stump with scabbing visible).

(Map B-1024) 14" Alder S.4 W. 32.1'; (Found, now 16" alder stump 10' high scabbing visible).

(Map B-1024) 26" Alder N.70'C W. 23.6'; (Found, now 26" alder top broken out scabbing visible).

New Accessories

I set a 3" Tillamook County Surveyors brass cap on a 5/8" iron rod in 10" concrete cylinder for reference mark #1. RM #1 bears N33°15'32"W 92.68' from the section corner.

I set a 3" Tillamook County Surveyors brass cap on a 5/8" iron rod in 10" concrete cylinder for reference mark #2. RM #2 bears N16°17'37"E 120.24' from the section corner.

Bearings are based on T.C.S. Map B-1025, from the SW corner of Section 29 to the W 1/4 of Section 29 = N 0°36'14"W.

*72° light hot section post North 1.50' of both reference marks.

*indicates Tillamook County Surveyors yellow metal location post attached.
