24" Hemlock bears S60°E 60 lks.; missing.
3" Hemlock bears S50°W 60 lks.; missing.
18" Hemlock bears N34°W 41 lks.; now a 20"x7 foot high badly
rotted stump with axe work visible on apparent face.

NOTE: Book 1, Page 277, Tillamook County Records, Bert Mason, Jr.
November 20, 1956 reports "A stone with 4 grooves on the
South side, a 6" squared post and two old BT's, none of which
comply with the original notes. I check the calls in all four
directions... the calls leading out of this corner to the North check
the ground and match distances scaled from the plat of 1893, but do
not check with the plat of 1891."

December 5, 1956 Mason reports "At the corner to Sections 8, 9, 16
& 17, T2N, R7W I find a blazing tree agreeing with in age, size and
direction of blaze with the original notes. The marks have been
chopped away. I check the calls to the South and East from this
point and the measurements also check measurements scaled from
the plat of 1891. But they do not check the plat of 1893."
