**Previous Rewitnesses, Restorations and Surveys, etc:**  

**Found Monument(s) and Accessories (Condition & Source):** Found 3' dia. BLM. Brass Cap in a 10" concrete cylinder. A 2' dia. Iron Pipe also protrudes from concrete. Found a hat section post with yellow metal location tag South 1 1/2' from the monument. Found a carsonite post 1 1/2' North of the monument. The original post was set in 1880 by GLO Surveyor Samuel G. Cauble and 4 bearing trees were scribed. In 1896 GLO Surveyor Lincoln E. Wilkes ran the line and found the post to be obliterated. He reset the post at record distances from the found bearing trees, but found the bearings to be off approximately 10'. Subsequent surveys and rewitnesses concur with the 1896 survey. In 1959 Mervin Whitmore found two of the Original Alder trees at the 1896 GLO bearing and distance and set the 2' dia. Iron Pipe at the corner position along with marking 3 new bearing trees. In 1962 BLM set the 3' Brass Cap as shown hereon at the position of Whitmore's Pipe.  
(1896 GLO) - Did not find the (6') Alder bears N 39° E 17 lks. [11.22]). Tree was used to set pipe in 1969.
