Found Monument(s) and Accessories (Condition & Source): In May of 1857 Samuel Snowden set a meander post and accessories. In 1869 R R Hayes set a Stone 8"x10"x24" and accessories. In 1915 R L Shreve added four more accessories and filed a map (A-192). In 1944 W S Coates ran the section line, he describes the M C as a concrete monument under the rail road tracks. Sometime between 1915 and 1944 the meander Corner was reset with a ¾ iron pipe surrounded with a 3" iron pipe in concrete. There are many maps and surveyor observations to verify but no evidence of the reset can be found. In 1991 Tillamook County Surveyors office found a ¾ pipe with a wood plug and tack surrounded by a 3" iron pipe in concrete. The County Surveyor set 3" brass cap on a 5/8"x12" iron rod inside of the ¾" iron pipe and filled the 3" protector pipe with concrete, and set one accessory a 72" hat section post with yellow metal location marker. The Survitness BK 7, PG 108 (1991): 72" hat section post with yellow metal location tag South 25.4' now gone.

Monument has a direct tie GPS observation
WGS 84: Longitude: W 123°54.20"
Latitude: N 45°33.41"

Pictures of Found Monuments:
