SENT TO:

This corner was established in 1850 by running East from
in the original notes Caddle crossed brook 10 lks. wide at 31.00
then set the 1 at 44.00 chns. and continued East crossing the

Some brook at 44.00 chns. This would place the corner to the North of this brook
which a 1" pipe was Id. The ground had been disturbed by an old sawmill. I feel that there wasn't sufficient amount of evidence to brasscape this course. I would recommend that this corner be set by single prop.
