Find old post, with squared top, lying under mass upon the ground.

Find two pine trees nearby with cross notches on each, signifying the position of the corner, thereby locating the fallen post.

Counting the rings from the outside of the pine to the notches signifies the notches were made 50 years ago.

After exhausting all hearing this possibilities I am convinced all original 87's are gone.

Let a dead pine limb at base of old post for the corner.

Put a location post on 8 in. pine s. 34° W, 12 ft

8 in. pine n. 11° E, 6 ft

Corner is located on sandy pine flat.
