Glo 1880 Set a post and marked: 30" snag, S. 45° E., 47 lbs. 40" snag, N. 68° W., 10 lbs.

Describe bearing trees or other official accessories found:

M. Whitmore, USFS, 1957, found a 30" snag, S. 45° E., 47 lbs. with marks "4S BT". He found a 40" snag, N. 68° W., 10 lbs. with marks rotted off. He marked 2 new BT's in 1957. An 18" Alder, S. 84° W., 64 ft. bark scribed 14" Alder, N. 74° W., 71 ft. bark scribed "4S19BT" "4S30BT".

Describe corner location relative to near-by features, also how to reach corner:

1968 Gauldy road has destroyed the corner point and the original snag witnesses. Whitmore's S.W. Alder B.T. is a sawed-off stump, but scribing is showing. His N.W. Alder B.T. is destroyed.

Using M. Whitmore's S.W. Alder witness, I determine true corner point that falls in the west track of Gauldy road.

I scribe 2 new witnesses shown in Column 10.

Corner: Set 1" iron pipe 9" long with 2 1/2" brass cap attached. Cap is set 6" below road surface.

The corner point was determined from 2 witnesses I marked in 1968. A 56" sawed-off snag, S. 70° E., 147 ft. Mkd. "4S30CSBT".

A 50" sawed-off snag, N. 44° E., 61.8 ft. Mkd. "4S19CSBT".

Set iron fence post 4 ft. west of cap and attach "Attention" sign. Nail "Attention" signs on BT stumps.

Leonard Whitmore

Tillamook County Deputy Surveyor

Date: 6/21/77

State Registration No.

Leonard & Mervin Whitmore were Deputy County Surveyors.

Frank Wratni, Land Survey Party Chief for Siuslaw National Forest.

Empowered to re-witness positive evidence of Glo. Monument.
