**TILLAMOOK COUNTY REFERENCE #1023**

**DATE:** 4-23

**COND**: Slightly bent at 2' Iron Pipe with 1/2' Iron Rod inside 2' I.P. Top of Pipe Fd 2' I.P. is 18 feet above ground & on Gravel River bank.

**O.K. O.K. O.K.** Hat Section, PK 788.49, Conc. Foundation, Ext. Entry N 89° E 59' 56"

**COMMENTS:** Unknown persons have been using the Corner to tie and anchor their boats. This year's floods may have caused logs to hit the corner also.

---

**REWITNESS**

I SET A 3" Brass Cap and 2" Iron Pipe in 140 pounds of Concrete with tile.

**NEW ACCESSORY:** Instead of placing the cap & pipe at the found position, I dug down past old pipe & bar where it was bent. And I used the hole made by the straight portion of the found bar & pipe.

**COMMENTS:** I removed old pipe and bar. I placed Brass Cap & Pipe in hole. I found that the position change was less than 02' W and 02' S.

**IN THE PRESENCE OF:** George W. Urrey, Gale Arthur

**DATE:** 3-8-72
