## **PUBLIC COMMENT**

The board will allow public comment at board meetings during a public comment period. Those intending to provide public comment for the board may email submissions to [publiccomments@co.tillamook.or.us](mailto:publiccomments@co.tillamook.or.us). Public comments received by 5:00 p.m. on Tuesday will be distributed to the board and become part of the public record.

Public comments submitted via email after the deadline or during the workshop or board meeting will be presented by staff to the board during the public comment period. Unless otherwise specified, these submissions will be presented during the board meeting. Public comments can also be mailed to the Board of Commissioners' Office, 201 Laurel Avenue, Tillamook, Oregon, 97141.

Two minutes is allowed per comment. The chair may, at his/her sole discretion, further limit or expand the amount of time for individuals to speak.

---

## JOIN THE BOARD OF COMMISSIONERS MEETINGS

The Board is committed to community engagement. Due to Oregon COVID-19 restrictions for public gatherings, the board provides opportunity for public participation during meetings via the options below. Live video and audio capabilities are listen-only and are offered on a best effort for the public.

- **Community Meetings: Tuesdays at 8:00 a.m.** (*Teleconference & KTIL-FM at 95.9*)  
Dial 971-254-3149, Conference ID: 736 023 979#
- **Board Meetings: Wednesdays at 9:00 a.m.** (*Live Video at tctvonline.com*)  
Dial 971-254-3149, Conference ID: 736 023 979#  
Agenda items are for discussion or consideration.

---

## MEETING INFORMATION AND RULES

- Matters for discussion and consideration by the board shall be placed on an agenda prepared by the Board Assistant and approved by the board chair. Any commissioner may request items on the agenda.
- Public hearings are formal proceedings publicized in advance through special public notice issued to media and others. Public hearings held by the board are to provide the board an opportunity to hear from the public about a specific topic. Public hearings are therefore different regarding audience participation at regular and workshop meetings.
- Individuals who wish to testify in-person during meetings and hearings shall do so at the table placed in front of the dais. Individuals testifying will, for the record, first identify themselves.
- Commissioners will be addressed by their title followed by their last name.
- Commissioners shall obtain approval from the chair before speaking or asking questions of staff, presenters, and public. As a courtesy, the chair shall allow an opportunity, by the commissioner who has the floor, to ask immediate follow-up questions.
- A majority of the board shall constitute a quorum and be necessary for the transaction of business.
- All board meeting notices are publicized in accordance with public meeting laws.
- All board meetings will commence with the Pledge of Allegiance.
- The chair will utilize the gavel as needed to maintain order, commence and adjourn meetings, and signal approval of motions.
- The board reserves the right to recess to executive session as may be required at any time during noticed public meetings, pursuant to ORS 192.660(1).
- The courthouse is accessible to persons with disabilities. If special accommodations are needed for persons with hearing, visual, or manual impairments who wish to participate in the meeting, please contact (503) 842-3403 at least 24 hours prior to the meeting so that the appropriate communications assistance can be arranged.

Subject: 2021-23 Specialty Court Grant Program Award Letter

### COMMISSIONERS

Jeff Auxier

Jessica Beach

Rob Bovett

Wally Hicks

Jessica Kampfe

Sebastian Tapia

Sen Floyd Prozanski\*

Rep. Duane Stark\*

\*Non-Voting

Greetings,

On behalf of the Criminal Justice Commission (CJC), Tillamook County Behavioral Health Court has been awarded \$177,898 under the 2021-23 Specialty Court Grant Program.

The Specialty Court Grant Program is a competitive grant program. The grant funding is targeted to support specialty courts meeting Oregon Specialty Court Standards. It is prudent for a court to consider various methods of funding in the event that state or federal grant funds are not available.

Included please find the Grant Award Agreement and other conditions. The award is subject to all programmatic and financial requirements, including timely submissions of any reports, reimbursements and requests for information.

Award Number:	SC-23-038	Project Start:	July 01, 2021
Amount:	\$ 177,898	Project End:	June 30, 2023
Award Date:	July 27, 2021		
Funding Source:	General Fund		
Statutory Authority:	ORS 423.150 (2)		

### TO ACCEPT THIS AWARD

Included is the Grant Award Agreement. Please review, sign and return to CJC as soon as possible, but no later than October 10, 2021 in order to request your first reimbursement in October 2021. Electronic copies should be emailed to [rachel.mcarthur@cjc.oregon.gov](mailto:rachel.mcarthur@cjc.oregon.gov).

CJC will execute the agreement and return a fully executed electronic copy to you for your files.

## IMPORTANT RESPONSIBILITIES

### *Quarterly Progress and Financial Reports:*

Grantees are required to submit quarterly financial reports (RFR's) and semi-annual progress reports online through the CJC's grant administration website at <https://cjc-grants.smapply.io/>. The detail for these reports are listed in the Grant Award Agreement.

### *Amendments:*

Grantees are required to submit all amendment requests through the CJC's grant administration website. Only (1) amendment will be allowed per quarter. Final amendments must be submitted by May 25, 2023 to be processed.

### *Travel:*

Lodging must be at the federal GSA rate to be reimbursed. If the lodging rate is not the federal rate or less none of the lodging costs will be reimbursed. Other policies around travel reimbursements can be found in the Statewide Travel Policy (OAM 40.10.00).

### *Subaward Contracts and Agreements:*

Grantees are responsible for notifying CJC of all sub-recipients of 2021-23 Specialty Court Grant Program funds. CJC reserves the right to obtain copies of all subawards, contracts and agreements. As a grantee you are responsible to ensure sub-recipients adhere to all of the requirements in your Grant Award Agreement with CJC.

## GRANT MANAGEMENT HANDBOOK

An updated version of the Grant Management Handbook is available.

CJC strives to create an inclusive environment that welcomes and values the diversity of the people we serve. The commission fosters fairness, equity and inclusion to create a workplace environment where everyone is treated with respect and dignity regardless of race, color, religion, gender, disability, physical stature, age, national origin, sexual orientation, marital status or political affiliation. Recipients of grant funds are expected to comply with these state and federal laws as outlined in the handbook.

If you have additional questions please do not hesitate to contact Rachel McArthur, Specialty Court Program Analyst, at [rachel.mcarthur@cjc.oregon.gov](mailto:rachel.mcarthur@cjc.oregon.gov).

Sincerely,

Ken Sanchagrin, Executive Director

Criminal Justice Commission  
885 Summer Street NE  
Salem, OR 97301

**To:** Public Comments  
**Subject:** EXTERNAL: PCR TEST Public Comments for October `13, 2021 to be read out loud. Dixie Gainer, Nehalem

[NOTICE: This message originated outside of Tillamook County -- **DO NOT CLICK** on links or open **attachments** unless you are sure the content is safe.]

The number of "cases" has determined lockdowns all over the world.  
Case #s as determined by the PCR test are invalid.

The actual number of COVID cases is also far lower than the reported number due to emergency use of polymerase chain reaction (PCR) tests, which are used as a diagnostic tool for COVID. The PCR tests are themselves experimental products, authorized by the FDA under separate EUAs (Emergency Use Authorization). The package inserts state PCR tests should not be used to diagnose COVID.

The complaint alleges the way in which the PCR tests are being administered knowingly guarantees an unacceptably high number of false positive results.

Also the PCR test does not find "a live virus or a covid virus" It finds a fraction of a chain of nucleotides from any virus- think of it this way - a very long strand of round colored beads. Just 4 colors arranged in many different sequences. The test can find a fraction of four beads from that chain but they are not specific to the COVID virus. **The PCR test does not determine infection from Covid. Yet is has been used to shut down the planet.**

Many scientists are suing against the use of this test.

**"The Off-Guardian covered this story: 'Portuguese court rules PCR tests 'unreliable' and quarantines 'unlawful'; important legal decision faces total media blackout in Western world.'**

"Most importantly, the judges ruled that a single positive PCR test cannot be used as an effective diagnosis of infection.'

"In their ruling, Judges Margarida Ramos de Almeida and Ana Paramés referred to several scientific studies. Most notably [a study by Jaafar et al], which found that – when running PCR tests with 35 cycles or more – the accuracy dropped to 3 percent, meaning up to 97 percent of positive results could be false positives.'

"The ruling goes on to conclude that, based on the science they read, **any PCR test using over 25 cycles is totally unreliable.** Governments and private labs have been very tight-lipped about the exact number of cycles they run when PCR testing, but it is known to sometimes be as high as 45. Even Anthony Fauci has publicly stated anything over 35 is totally unusable.' In Oregon the test is run at 40 cycles

"The court was declaring the PCR test alone could not be sufficient for a diagnosis of disease, and it was outrageous to believe it could.

"A 'case of Covid disease' without a medical assessment of clinical symptoms in the patient is no case at all. It is a misnomer, and, the Court stated, represents a serious breach of the law."

This is why we hear "tested positive but have no symptoms" people are described as having Covid - yet they are not sick. And they are not sick, they are not sick at all, not with covid or with any cold or flu.

Regardless, those in charge need to be held accountable, which is precisely what the German corona extra-parliamentary inquiry committee (Außerparlamentarischer corona untersuchungsausschuss, or ACU), intends to do.

"They're in the process of launching an international class-action lawsuit against those responsible for using fraudulent testing to engineer the appearance of a dangerous pandemic in order to implement economically devastating lockdowns around the world....

"The whole premise of PCR testing to diagnose Covid-19 is in serious question, as the practice appears to be based on an erroneous paper that didn't even undergo peer-review before being implemented worldwide.

The CDC will not be using this test next year, probably due to lawsuits.

[NOTICE: This message originated outside of Tillamook County -- **DO NOT CLICK** on links or open **attachments** unless you are sure the content is safe.]

Why are we not treating all possible COVID-19 cases and treating them EARLY with proven therapeutics like Ivermectin, Hydroxychloroquine, Zinc, Vitamin D3, Vitamin C and more. All things which are inexpensive and WORK. Instead people are being treated with Remdesivir which is \$520/dose and is not nearly as effective and also can only be administered under hospital care.

If Ivermectin being used successfully for the Dominican Republic to cure over 6000 COVID-19 patients from the start of the pandemic to September of 2020 why is it not being used here and being prescribed to all COVID-19 patients?

[**NOTICE:** This message originated outside of Tillamook County -- **DO NOT CLICK** on links or open **attachments** unless you are sure the content is safe.]

I would like to thank Tillamook County for having the needle exchange program, and for the caring people running it. My son was an addict, he told me that the people there are very nice and treated him like a regular person. That surprised him as he isn't used to being treated well in the world. They gave him information to help him break away from those chains. Because of these people my son is now a happy healthy adult. Thank you from the bottom of my heart.

[NOTICE: This message originated outside of Tillamook County -- **DO NOT CLICK** on links or open attachments unless you are sure the content is safe.]

good morning tillamook county . i would like it very much if tillamook county commissioners would look into the newly release grand jury petition filed by senators kim thatcher and dennis linthicum in regards to MISINFORMATION being pushed by the cdc and fda and in turn being pushed by OHS and a governor that has threatened revenge on oregon citizens.. if what they and other experts are saying is true in regards to screwing with how the testing and deaths were reported in order to push all the hardships that have been hoisted onto us the implications are huge.. lives/businesses/relationships and trust in our elected representatives and medical system are actively being destroyed because we believe we are being lied to and manipulated and stole from . and please look into why we were lied to and propagandized to in regards to hydroxachloriquine and ivermectim.. these inexpensive, safe drugs have been proven world wide and locally to save lives so why are they being denied to us? why are we being censored from social media when we talk about it? and we are not being censored by mark zuckerberg, we are being directly censored by elected officials and politically active friends of elected officials.. someone needs to be held accountable.. please do the job we pay you to do and represent us not the communists who KNOWINGLY unleashed this virus to the world.. i would like full disclosure of all conversations and money transfers with state and federal officials . i would hate to think that people in tillamook county are KNOWINGLY engaged not giving potential life saving medicine to those who have died here etc etc etc.. also in re to masks.. common sense shows us that masks dont work.. its plain for the eye to see. so please end the psyop.. also please don't tell me you are going to pray for me and my family.. we dont pay you to pray and i find it insincere and insulting. we the people are pissed and WE WANT THE TRUTH. thankyou if you do the right thing.

**From:** [REDACTED]  
**Sent:** Wednesday, October 13, 2021 9:50 AM  
**To:** Public Comments  
**Subject:** EXTERNAL: public comment for Oct 13 Commissioners Meeting

[NOTICE: This message originated outside of Tillamook County -- **DO NOT CLICK** on links or open attachments unless you are sure the content is safe.]

Tillamook County Commissioners,

Citizens want to know... If commissioners truly want Tillamook County citizens involved in county government as stated on the county commissioners website, then why are commissioner meetings being held at an hour when the majority of taxpaying citizens are at their places of employment earning a paycheck supporting their families, contributing to the economy, and contributing to taxes paying county operating expenses, including commissioners salaries? Surely commissioners recognize that weekday morning meetings are removing the majority of citizens from participating in the People's government? The official weekly commissioners meeting needs to be moved back to evening hours like years past, which also aligns with most governing boards, districts and committees.

Another issue removing citizens from participating in the People's government is the official weekly commissioners meeting being closed to "in person" attendance. The Constitution clearly states public access to government does not close even in a time of crisis. Those who have read the Constitution and are educated in pre-World War 2 history know the reason why. Why are commissioners holding out? Is it because they have not done their due diligence to become knowledgeable of Constitutional basics? The commissioners decision to close "in person" meetings has lead Tillamook County to be in violation of the Constitution, specifically the 1<sup>st</sup> Amendment. Are commissioners aware that they're open to lawsuits for violating any part of the Constitution? Elected officials should know the Constitution is the supreme law of the land.

Also, commissioners have been asked multiple times to publicly disclose the peer reviewed documented scientific clinical studies they are using to base their knowledge, comments and any decisions they make regarding covid? It's been 18 months but still no "burden of proof" public disclosure concerning covid mandates? Why are commissioners willfully ignoring this requirement?

Why are commissioners limiting themselves and ignoring vital medical information, only relying on a select few sources for making decisions affecting citizens? Commissioners are not acknowledging the vast amount of valuable scientific information from reputable, credible and well respected medical professionals. Commissioners position requires them to be diligent, be knowledgeable and informed in all aspects of any issue or event concerning county government, when actually what commissioners are doing is willfully refusing vital and proven lifesaving information. Commissioners repeatedly claim not to be medical professionals but continue to advise and strongly advocate for highly charged controversial health treatments that in fact are personal health choices as charged by the Constitution, which makes commissioners public participation of advising citizens to comply to unlawful mandates a political issue.

History clearly shows that elected officials best serve citizens by being informed when reviewing a multitude a information sources, including the use of the US and Oregon Constitution as a guide in decision making, which again historically shows to be superior and the most effective in governing with the allowed invested authority and power of their elected office.

Best Regards,

**Kelly Fulton**

[NOTICE: This message originated outside of Tillamook County -- **DO NOT CLICK** on links or open attachments unless you are sure the content is safe.]

In years past, we were allowed **5 minutes** for public comments. **2 minutes is unacceptable.** You claim to care about public input then you need to provide more time to comment. 5 minutes is very **reasonable**, 2 minutes is not. Covid-19 is being used to shut us out now by not having in-person meetings. We have never done this during any of the major flu epidemics. The same with wearing a mask, social distancing of 6 ft or lockdowns. You need to stop promoting fear. We also need evening meetings for people who work. You need to provide an outreach plan. How do you intend to respond to your constituents' emails, phone calls and public comments?

Did you know that the PCR test was never intended to be used for clinical diagnosis? Listen to Dr. Kary Mullis the inventor of this test( link below) and what he said about his test and Dr. Fauci. Yes, Commissioner Yamamoto it came from the internet so you just discredited all these public health institutions you cited that publish on the internet. Apparently, you are dismissive of anyone who does their own research. It's called authoritarianism-or totalitarianism where the state has the last word. All our commissioners need to brush up on the Oregon and US Constitution. An oath you swore to abide.

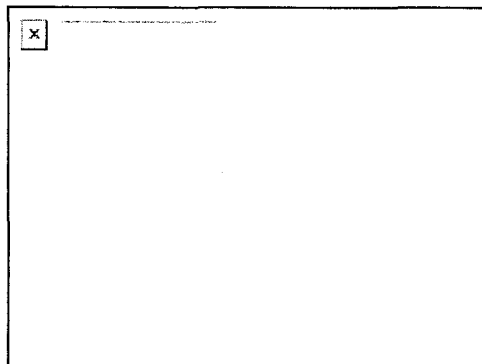

This entire pandemic and our response is built around a test that was never supposed to be used for clinical diagnosis. It was never peer reviewed when it was quickly approved by the WHO. The CDC now says it will be illegal to use a defective test by the first of the new year. Why are we still using it and basing our public health decisions on it? It can't distinguish between the flu, a respiratory illness, past infection, or whether you are currently sick or have COVID-19. Last year, the flu disappeared. Why? Because the flu was labeled COVID-19. Any amplification over 30 creates false positives. They were using 40 and over, so cases are meaningless, yet you quote cases and presumptive cases every week. It's about generating fear. Commissioner Yamamoto stated we hope we won't be locked down again, but it will depend on the number of "**CASES**". Cases have never been used in the history of public health decisions, only hospitalizations and infection fatality rates.

The Tillamook Health Director said **NO ONE** has died from these vaccinations in our county, but she should have prefaced it with that we know of without autopsies that show the cause of death. We also don't know why people who were unvaccinated died with an inaccurate test. What were their ages, did they have underlying health issues? Were they given a test for the flu? No early treatments for the very first time, CDC hospital protocols like Remdesivir that are not only not effective, but have dangerous side effects. There is also no designation for vaccine deaths on death certificates. Coronas are told not to do autopsies. I have a medical examiner in my family in a large metro city who also has been discouraged to talk to other coronas around the country and to do autopsies on people that died after being vaccinated.

Respectfully yours,  
Robin Kostrikin  
Pacific City

In his own words. Listen and you might learn something. He won a Nobel Prize in Chemistry for his PCR test which was ONLY to be used to study viruses in the lab, not for clinical diagnosis.

**Subject:** EXTERNAL: Public Comments--October 13th Tillamook Board of Commissioners

[NOTICE: This message originated outside of Tillamook County -- **DO NOT CLICK** on links or open **attachments** unless you are sure the content is safe.]

Tillamook Board of Commissioners:

Perhaps you have been hidden from the public too long behind screens due to a virus with a 99% survival rate, for which there are numerous medical treatments.

In the past several weeks you have:

1. Closed county offices, and therefore diminished services that the public pays for with tax funds.
2. You have refused, delayed, or scoffed at questions from patrons.
3. You have claimed some answers would be provided, but have not provided them for 3 weeks.
4. You have segregated the population through numerous statements and a newspaper article solely based on private medical decisions which are protected by federal law, Civil Rights Law and the 14<sup>th</sup> Amendment of the U.S. Constitution.
5. You have limited public comments (mostly pre-submitted) and sometimes refused to read public comments. (A practice most American citizens view as authoritarian oppression. )
6. You have repeatedly given medical advice to the entire county, as if you are qualified to recommend medical treatments or have any knowledge of individual medical history. This could be a violation of law, known as "impersonating a licensed medical professional."

It is past time that the Tillamook County Board of Commissioners be reminded you are elected officials that are in office to serve the public, and therefore serve only by the will of the citizens of Tillamook County. The facts above demonstrate that you are more committed to serving other entities. While I will not make conjectures on who those entities are, it is clear that you have forgotten your oath to uphold the Constitution of the United States and of the state of Oregon. It does appear you are very interested in obeying the mandates of a governor that has no regard for the laws of our state.

Given all this, **please explain what is meant from the agenda for today's meeting, Item #16 "Memorandum of Agreement with Tillamook County and the (AFSCME) Local 2734 Union Regarding Governor Vaccine Mandate PH38-2021/PH39-2021/" and how this "agreement" serves the people of Tillamook County's interests.** If this is an adherence to coercing county employees to getting an experimental treatment for COVID-19 (a "vaccine"), what law are you basing this "agreement" on? Also, how many employees does Tillamook County stand to lose based on this "agreement"?

Sincerely,  
April Bailey  
Resident of Beaver, Oregon

Tillamook Board of Commissioners:

In response to several public comments that included questions, and valid information the only response from all the commissioners is thank you?

This is not an appropriate response, it is absolutely insulting to the citizens you are paid to represent.

With all due respect commissioners, going directly from public comment to thank you to a recitation of a COVID 19 update that included mostly public service announcement is dereliction of duty. Please answer the questions put before you.

Sincerely,  
April Bailey

[NOTICE: This message originated outside of Tillamook County -- **DO NOT CLICK** on links or open **attachments** unless you are sure the content is safe.]

Sept. 29, 2021 ruling from the Oregon Court of Appeals. The court told OHA and Director Pat Allen in Chester Mooney v. State of Oregon the case was being dismissed as moot as their guidance was not an administrative rule.

A former state government regulator noted: Rules cannot violate law. The governor's of both states, Oregon and Washington, appear to hope that no citizen or business would actually look up the law, but instead simply believe "rules", "suggestions", "guidance", "mandates", "requirements" were "law". If rules violate law, rules are "moot".

Oregon Court of Appeals presiding Justice Erin Lagessen on Sept.f 29, 2021 found a court can't rule on something that isn't law. Courts rule on law. Courts listen, review, then rule on a case when a petitioner has been damaged under the law. Obeying a suggestion by the governor that is not a law where a business or citizen hasn't been damaged isn't what courts of law do.

Some Oregon businesses have kept OSHA at bay by simply asking OSHA in writing that the business needed in hard copy form the US Constitution, The Oregon Constitution, Federal Civil Rights laws, and Oregon law, and to have OSHA's attorney highlight in yellow which laws and subsections of those laws that their business being "open" was in violation for which law?

The businesses are open and flourishing.

Submitted by Merrily Ario, I live in Pacific City [REDACTED]. I would like my comments to be read during the meeting on Wednesday, Oct. 13th.

Thank you.

**Subject:** EXTERNAL: Sandlake RD

[**NOTICE:** This message originated outside of Tillamook County -- **DO NOT CLICK** on links or open **attachments** unless you are sure the content is safe.]

As a resident on Sandlake rd, I feel it necessary to email you and express my frustration by the multiple failures, to attempt the repair of the road, and the waste of tax payer money.

It is frustrating to see all the work put into repairing and resealing the rd. then have chained up trucks, and graders try destroying what was just done. Next, grind all the work off, that tax payers paid for, and leave the road in shitty shape for the rest of the year. Next, lets fix it with a chip seal, which didn't seal, and spend the next couple days sweeping all the rock that tax payers paid for into the ditch. All of this and the wages paid for by tax dollars, and we still have a piece of shit rd. which needs more time, flagging, and tax payer money spilled into it, and the finished project, still wont be any better than the condition of the road we had to begin with. Thank you for your responsible handling of road construction and tax payer funds.
