How does Project meet the purpose of the Legislation? Helps by reducing the number of fuels around and near homes within the county and near Federal lands. Focusing on the use of the principles of the Firewise Community Program and in conjunction with the Tillamook County CWPP. The project will be an investment in the rural community to help in maintaining healthy communities from wildfire. Also, the Tillamook CWPP will be revised and updated.

How does the Project benefit your Community? The project will benefit the community by giving the homeowners a way of disposing their yard debris in a safe manner and reduce nuisance smoke. It provides an opportunity before and during Fire season and the County wide burn ban that happens every year during the heighten fire danger. It will also benefit the community by reducing the amount of yard debris pile burning prior to, during and after fire season and the amount of possible hold over fires. The project will also use the Firewise Community Program principles to reduce the number of fuels around homeowner's houses and properties to help improve their defensible space from wildfires. The project will also help educate and engage members of the community in fire prevention and defensible space while using the Firewise Community Program.

How does the Project improve cooperative relationships among people who use Federal lands and the Federal Management Agency? It will help improve the relationships by reducing the amount of time and effort of resources having to focus on protecting homes and structures in the case of a wildfire that was started on Federal lands or that on private lands that spread to or from either property.

Anticipated cost of the Project (itemize):

- Review and Consultation Costs: \$n/a
- Engineering Costs: \$n/a

- Other Costs: \$500 Home & Garden Show Booth rental; \$500 Fair Booth rental; \$89,500 Debris Collection Fees
- Indirect Costs (overhead): \$2,500 Home & Garden show; \$5,000 Fair Booth

TOTAL COST ESTIMATE: \$101,000

ESTIMATED START DATE OF PROJECT: August 1st, 2022

ESTIMATED COMPLETION DATE OF PROJECT: December 31st, 2022

TOTAL FTE: 1 in kind

Identify sources of other funding for Project (including amounts): Oregon Department of Forestry will be providing the funding for most of the other overhead cost except for the cost that will be used during the Home & Garden Show and Fair Booth

Expected project accomplishments and/or outcomes: To reduce fuels around homes within the county and near Federal Forests from the threat of wildfires spreading to or from private landowners or Federal Forests. An expected outcome is to engage homeowners in Firewise Community program and create defensible space through education and prevention.

Explain how the Project will create or produce a benefit to the Federal resource: To reduce the number of fuels near or around homes to prevent the spread of fires from private homeowners' property or the spread of fires from Federal Forests to private homeowners property. The fuels reduction will be focus on the principles outline within the Firewise Communities Program and the Tillamook County CWPP.

Describe the monitoring and reporting plan to measure outcome (What measure or evaluation will be made to determine how well the proposed project meets the desired objectives?): After each 7-month period, we will report back with the total tonnage that was brought to the transfer stations, the number of debris vouchers and homeowners that used, and the total cost of the program. Also, we will be providing home assessments to homeowners upon request and documenting the number and location of these that are conducted.

Other comments: This program was successfully funded during the years of 2013-15 and 2018-2021. We worked with David McCall at the Tillamook County Solid Waste Department and the three-transfer station during the multiple years. The program brought in almost 800 tons in 2013-2015 and 2,500 tons in 2018-2021 of yard debris from around the county. We have had a lot of the community support with the program and statements saying that this is a great program for the county. The project provided an easy way for homeowners to easily dispose of their yard debris. Also, it provides an easy avenue for
