A Planned Residential Development shall conform to the general objectives as presented by the comprehensive plan for the area and it shall be compatible with the established and proposed surrounding land uses.

2. STANDARDS AND REQUIREMENTS: The following standards and requirements shall govern the application of a Planned Residential Development in an area in which it is permitted.

   a. A Planned Residential Development overlay zone is allowed in the RR, NT-R2 and NT-R3 zones.

   b. The density of a Planned Residential Development shall conform to the density and standards of the underlying zone.

   c. Dimensional standards for lot area, depth, width, and all yard setback standards of the underlying zone shall not apply. These standards shall be established through the Planned Residential Development approval process in order to fulfill the purpose of the NT-PRD Overlay Zone. In the RR/PRD zoned areas, only those properties located within a Community Growth Boundary can utilize this item.

3. Any proposed change to an approved conceptual plan which may increase the intensity of use or off-site impacts must conform to the criteria and procedures contained in Article IX of this ordinance. This determination shall be made by the Director. Notice of such a determination shall be provided to those within the required notice area.

b. An applicant shall submit a preliminary development plan to the Planning Department for review. The preliminary plan shall include the following information:

2. Resulting development will not be inconsistent with the comprehensive plan
provisions or zoning objectives of the area.

3. The plan can be completed within a reasonable period of time.

4. The streets are adequate to support the anticipated traffic and the development will not overload the streets outside the planned area.

7. The proposed use will not alter the character of the surrounding area in a manner which substantially limits, impairs or prevents the use of surrounding properties for the permitted uses listed in the underlying zone.

8. The proposed use is timely, considering the adequacy of public facilities and services existing or planned for the area affected by the use.

9. Proposed uses which are not otherwise permitted by the underlying zoning on the parcel are accessory uses within the entire development.

d. The Planning Department shall notify the applicant whether, in its opinion, the foregoing provisions have been satisfied and, if not, whether they can be satisfied with further plan revision.

e. Following this preliminary review, the applicant may request approval of the Planned Residential Development by the Planning Commission according to the provisions in Article VI if the proposal is to take place on property designated with the Planned Development Overlay Zone prior to May 30, 1985.
