City Parks Master Plan 2013

Attractive
Safe
Family friendly
Recreation area

City Council Goals for Carnahan Park

Provide attractive user friendly and safe boat launch area that is ADA accessible

Carnahan Boat Dock Replacement

Dock was aging significantly with rotten spots, missing tie cleats, and having reports of visitors stepping though the dock.

The city thought of removing the dock entirely but due to many visitors fishing and this being a popular boat ramp the city decided against it

Boat Dock Replacement

Oregon State Marine Board

Estimated Cost: \$300,000

The City looked for funding options.

Oregon State Marine Board Grant

\$213,750

TLT Grant

\$100,000

\$313,750 Total

City Constructs New Dock

Main Goal - Build new dock
ADA compliant and user friendly

Project Comes in Under Budget

- City used \$44,780 of TLT \$100,000 and requested to use remaining balance to achieve other City Council goals this park.
- County approves request to use remaining funds with Amendment 1 to TLT Agreement
- City spends total of \$72,712 of TLT funds on project....still under budget!

Parking lot Reseal and Restripped

Next City Council Goal

The parking lot was also in need of repairs. Crack sealing, seal coating and faded stripping made the parking unattractive.

The city did a seal coating to prevent damage and restriped the parking spots and arrows to make it more family friendly.

Meeting other City Council Goals

- Benches

Picnic Areas - Shelter and tables

Tillamook

We are Tree City

Planting shade trees

Directional Signs

Trash cans

Doggie Station

Budget Money Spent

This park specifically attracts boaters, fishermen, to a family friendly boat launch area; from locals to out of state.

Some people are from out of town and will use services like local gas, Restaurants, hotels, grocery stores, and sport shops.

The improvements will always be on going in the parks. Outdoor actives may change but the need for safe, family friendly recreation will always be needed.
