

**PARTITION REQUEST #851-22-000358-PLNG:  
NEHALEM POINT, INC.**

**ADMINISTRATIVE DECISION AND STAFF REPORT**

**DECISION: Approved with Conditions**

**DECISION DATE:** November 10, 2022

**REPORT PREPARED BY:** Angela Rimoldi, Planning Technician

**I. GENERAL INFORMATION:**

- Request:** Plat approval to partition the subject property into three (3) parcels.
- Location:** Tax Lot 200 of Section 34, Township 3 North, Range 10 West of the Willamette Meridian, Tillamook County, Oregon.
- Zone:** Nehalem Low Density Residential (NH\_RL), Recreation Management (RM), Estuary Natural (EN).
- Applicant:** Nehalem Point Inc., P.O. Box 86, Manzanita, OR 97130
- Property Owner:** Nehalem Point Inc., P.O. Box 86, Manzanita, OR 97130

**Description of Site and Vicinity:** The subject property is accessed via Nehalem Point Dr. and Bay View Dr., both private roads, is irregularly shaped, approximately 86 acres in size, and is vegetated with grasses, trees, and wetlands. The subject property is located south of the City of Nehalem, between Nehalem Bay and the Nehalem River. The subject property is primarily located within the City of Nehalem Urban Growth Boundary. The subject property is primarily zoned inside the Nehalem Low Density Residential (NH\_RL) zone with some area in the Estuary Natural (EN) zone and the Recreation Management (RM) zone (Exhibit A).

Applicant/Owner is requesting to partition the subject property into a total of three (3) parcels (Exhibit B).

The subject property is located within Flood Zone AE per FEMA Flood Insurance Rate Map (FIRM) Panel #41057C0209F (Exhibit A). Mapped wetlands are located on the property according to the National Wetlands Inventory (Exhibit A).

Given the size and topography of the subject property and subsequent parcels, staff finds that the standards of TCLUO Section 4.130: Development requirements for Geologic Hazard Areas and City of Nehalem Zoning Ordinance Section 57.261 are not applicable at this time, however a Condition of Approval has been made to require relevant standards of this section be adhered to at the time of development.

## II. APPLICABLE ORDINANCE AND COMPREHENSIVE PLAN PROVISIONS:

The desired use is governed through the following sections of the Tillamook County Land Use Ordinance (TCLUO) and Land Division Ordinance (TCLDO). The suitability of the proposed use, in light of these criteria, is discussed in Section III of this report:

- A. Land Division Ordinance Section 060: Preliminary Plat Submission Requirements
- B. Land Division Ordinance Section 070: Preliminary Plat Approval Criteria
- C. Land Use Ordinance Section 3.040: Recreation Management Zone (RM)
- D. Land Use Ordinance Section 3.102: Estuary Natural Zone (EN)
- E. Land Use Ordinance Section 4.130: Development Requirements for Geologic Hazard Areas
- F. Land Use Ordinance Section 3.510: Flood Hazard (FH) Overlay
- G. City of Nehalem Zoning Ordinance 157.138 Low-Density Residential - RL Zone Standards
- H. City of Nehalem Zoning Ordinance 157.261 Geologic Investigation
- I. City of Nehalem Subdivision Ordinance Chapter 156

## III. ANALYSIS:

Notice of the request was mailed to property owners within 250 feet of the subject property and other agencies on October 17, 2022. One (1) comment was received from The City of Nehalem in reference to the water availability for the subject parcel(s) and future development (Exhibit C). A condition of approval has been made to require relevant water distribution improvements as deemed necessary by The City of Nehalem.

### A. **Land Division Ordinance Section 060: Preliminary Plat Submission Requirements**

This section specifies what general information is required on a preliminary plat, information about existing conditions of the site, information about the proposed development allows the Department to require certain additional information to supplement the proposed plan of the subdivision.

**Findings:** Information required under this section is included on the preliminary plat or as supplemental information including service availability letters, existing and proposed easements, and locations of natural features (Exhibit B).

Staff finds that the submitted plat meets the requirements of Land Division Ordinance Section 060 and is subject to the following approval criteria in Section 070.

### B. **Land Division Ordinance Section 070: Preliminary Plat Approval Criteria**

(1) *Approval Criteria. The Approval Authority (Director for partitions and Planning Commission for subdivisions) may approve, approve with conditions or deny a preliminary plat. The Approval Authority decision shall be based on findings of compliance with all of the following approval criteria:*

- (a) *The land division application shall conform to the requirements of this ordinance;*
- (b) *All proposed lots, blocks, and proposed land uses shall conform to the applicable provisions of the Land Use Ordinance – Article 3 Zone Regulations and the standards in Section 150 of this ordinance;*

**Findings:** The “Partition Plat for Nehalem Point Inc. Darryl Carter - President” prepared by S&F Land Services dated August 15, 2022, proposes three (3) parcels: 2 Residential Single-Family and 1 residual (Exhibit B). Proposed parcel 1 is approximately 18,960 square feet, proposed parcel 2 is approximately 19,500 square feet and proposed parcel 3 is approximately 85-acres (Exhibit B). Proposed Parcel 1 and 2 are subject to the NH\_RL Zone, which is later discussed in this report. Proposed Parcel 3 remains a split zone.

The western portion of the subject property is mapped in an ‘AE’ Flood zone as indicated on the FEMA Flood Insurance Rate Map (FIRM) dated September 28, 2018 (Exhibit A). A portion of the subject property within the mapped Special Flood Hazard Area is located within the County zoned Recreation Management (RM) zone and Estuary Natural Zone (EN). Staff finds development within the area of the FEMA SFHA may be subject to the Tillamook County Flood Hazard (FH) Overlay. Staff finds the location of residentially zoned parcels are primarily located outside the FEMA SFHA.

Staff finds that the requirements of TCLDO Section 70 are addressed in the findings below.

- (c) Access to individual lots, and public improvements necessary to serve the development, including but not limited to water, sewer and streets, shall conform to the standards in Sections 150 and 160 of this ordinance;*
- (e) The proposed streets, utilities, and surface water drainage facilities conform to Tillamook County’s adopted master plans and applicable engineering standards and, within Unincorporated Community Boundaries, allow for transitions to existing and potential future development on adjacent lands. The preliminary plat shall identify all proposed public improvements and dedications;*
- (f) All proposed private common areas and improvements, if any, are identified on the preliminary plat and maintenance of such areas is assured through appropriate legal instrument;*
- (g) Provisions for access to and maintenance of off-right-of-way drainage, if any;*

**Findings:** The applicant’s submittal included as “Exhibit B” of this report demonstrates that the above criteria are satisfied. Staff finds that the subject property has frontage on the existing private roadway identified as Nehalem Point Drive and Bay View Drive, a private road (Exhibit B). No comments were received from the Tillamook County Public Works Department. Utilities are discussed under criterion (i). Staff finds that these criteria have been met.

- (h) Evidence that any required State and Federal permits, as applicable, have been obtained or can reasonably be obtained prior to development; and*

**Findings:** All utilities and roadway necessary to serve the proposed partition have been installed and approved by the appropriate permitting agencies through previous County review. A Condition of Approval can be made to require any additional state and federal permits be obtained prior to development of the proposed parcels.

- (i) Evidence that improvements or conditions required by the road authority, Tillamook County, special districts, utilities, and/or other service providers, as applicable to the project, have been or can be met, including but not limited to:*
  - (i) Water Department/Utility District Letter which states that the partition or subdivision is either entirely excluded from the district or is included within the district for purposes of receiving services and subjecting the partition or subdivision to the fees and other charges of the district.*
  - (ii) Subsurface sewage permit(s) or site evaluation approval(s) from the appropriate agency.*

**Findings:** The applicant’s submittal includes letter of confirmation from affected utility districts/agencies that all utilities have been installed (Exhibit B). Applicant has provided a water availability letter from the City of Nehalem and sewer availability from the Nehalem Bay Wastewater Agency (Exhibit B). Staff find these criteria are met, or can be met through the Conditions of Approval.

**C. City of Nehalem Zoning Ordinance 157.138: Low-Density Residential (RL) Zone Standards**

The minimum lot size shall be 10,000 square feet, with a minimum lot width of 75-feet and lot depth of 100-feet.

**Findings:** The subject property is split zoned; all the proposed parcels are zoned Nehalem Low Density Residential (NH\_RL) and meet the minimum parcel size requirements of 10,000 square feet: along with the minimum lot depth requirement of 100-feet and the minimum lot width requirement of 75-feet (Exhibit B).

Proposed parcels 1 and 2 do not fall into the additional zone requirements as the proposed boundaries remain in the NH\_RL area; whereas proposed parcel 3 may meet the minimum 40-acre parcel size requirement of the Recreation Management Zone (RM), and there are no minimum lot size standards for the Estuary Natural (EN) zone (Exhibit B).

Staff find these development standards have been met.

**D. City of Nehalem Subdivision Ordinance Chapter 156**

**Minor Partitioning Standards 156.065-156.068**

**156.065 Minimum Standards**

156.065(A) *The minimum standards for design and improvements in a minor land partitioning shall conform to §§ 156.080 through 156.085 of this chapter.*

156.065(B) *The city may impose all or any of the requirements of § 156.086 of this chapter upon a minor land partitioning.*

**156.066: Initial Submission.** *Submittal requirements and payment of fees.*

**156.067: Information on a map.** *A tentative sketch map, drawn to scale, shall indicate the following:*

(A) *The location of existing and proposed boundaries and acreage of parcels in the proposed partition with the location, width, name and purpose of all adjacent streets or easements and the location and outline of existing buildings, etc.*

**156.068 Review and Approval.** *City of Nehalem review and approval process, including appeal process.*

**City of Nehalem Subdivision Ordinance Chapter 156, Design Standards 156-080-156.084:**

**156.080 General Requirements.** *Section 156.080 applies to expedited land divisions, subdivisions and major partitions. This application is for a minor partition accessed via Nehalem Point Drive, a private roadway. The requirements of this section do not apply to this request.*

**156.082 Utility Easements**

*Easements for sewers, drainage, water mains, public utility installations including overhead or underground systems, and other like public purposes shall be dedicated, reserved or granted by the land divider in widths not less than five feet on each side of rear lots or parcel lines alongside lots or parcel lines and in planting strips whenever necessary, of lesser width as approved by the city.*

**156.083 Building Sites**

(A) *Size and shape. The size, shape, width and orientation of building sites shall be appropriate for the type of development and use contemplated, and shall be consistent with the residential lot size provisions of Ch. 157 of this code of ordinances.*

(B) *Access. Each lot and parcel shall abut upon a street other than an alley for a width of at least 20 feet.*

**Findings:** Staff finds that the applicable required information outlined in the City of Nehalem Subdivision Ordinance Chapter 156 has been included with this partition application (Exhibit B). Conditions of Approval can be made to require all easements be identified on the final plat.

**IV. DECISION: APPROVED WITH CONDITIONS:**

Staff concludes that the applicant and property owner have satisfied the minimum application requirements and can satisfy all applicable requirements outlined in the Tillamook County Land Use Ordinance, Tillamook County Land Division Ordinance, the City of Nehalem Zoning Ordinance, the City of Nehalem Subdivision Ordinance and ORS Chapter 92. The Preliminary Partition Plat is hereby tentatively **APPROVED with CONDITIONS**, subject to the conditions listed in Section V below.

By accepting this approval, the applicant and property owners agree to indemnify, defend, save and hold harmless Tillamook County, and its officers, agents, and employees from any claim, suit, action or activity undertaken under this approval, including construction under a Building Permit approved subject to this approval. The applicant and property owners shall obtain all necessary local, state, and federal permits and comply with all applicable regulations for the proposed Partition and building sites.

**Appeal of this decision.** This decision may be appealed to the Tillamook County Planning Commission, who will hold a public hearing. In such cases, forms and fees must be filed in the office of this Department before **4:00 PM on November 22, 2022.**

**V. CONDITIONS OF APPROVAL:**

This approval is subject to the following conditions:

1. The property owners shall obtain all Federal, State, and Local permits, as applicable.

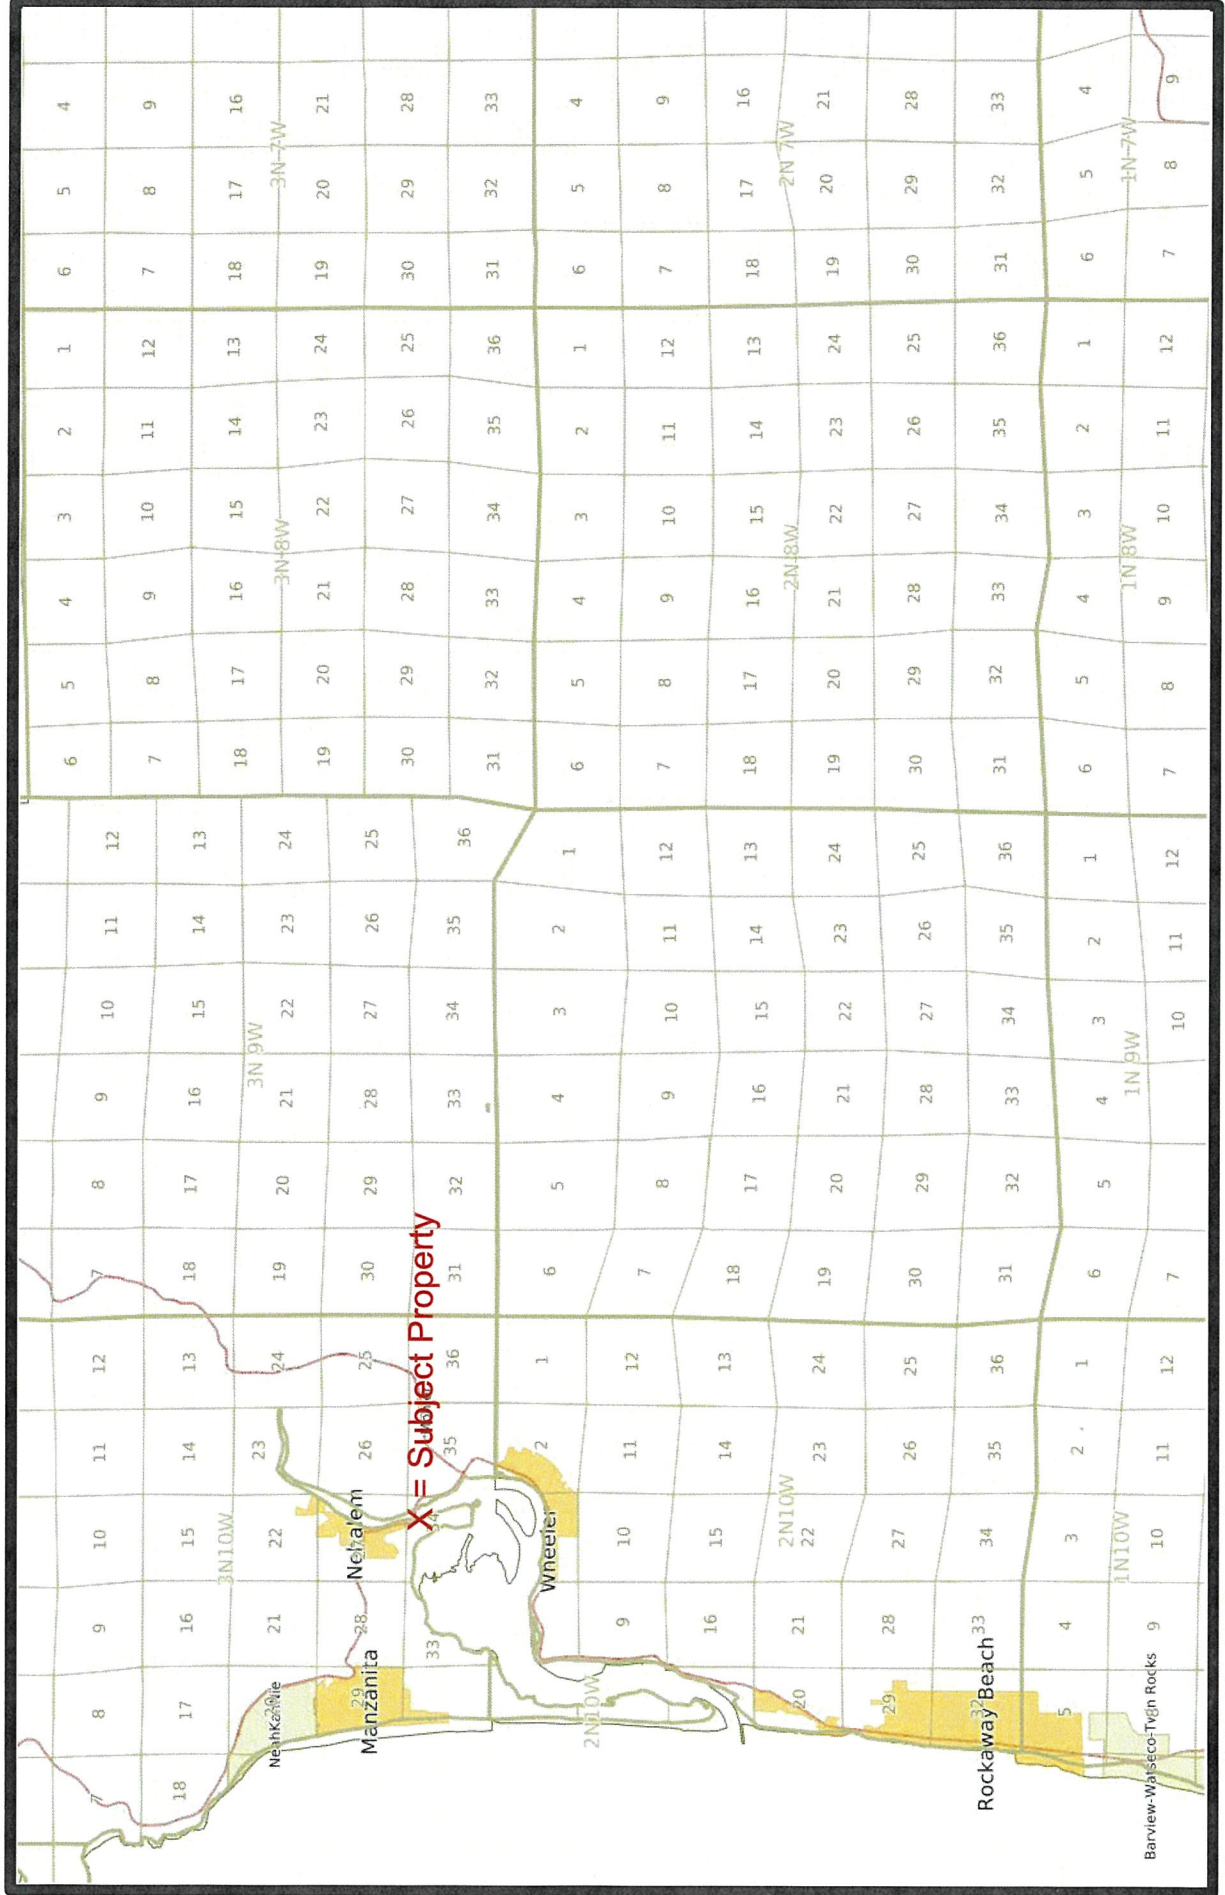

2. The applicant and property owner shall meet the requirements of the City of Nehalem for water supply system design & construction as set forth in the City of Nehalem letter dated October 28, 2022. Letters of water service availability will be required at the time of development of each individual parcel.
3. Future development shall adhere to the uses and development standards set forth in the applicable zoning standards, including all other applicable supplemental ordinance requirements of the City of Nehalem Zoning Ordinance and Tillamook County Land Use Ordinance.
4. All easements necessary to serve the parcels for access and utilities shall be clearly identified on the final plat.
5. The applicant and property owner shall comply with all requirements of the Tillamook County Surveyor's Office.

Re: Partition Requests #851-22-00353 PLNG and #851-22-000358 PLNG:  
Nehalem Point Inc.

Dear Ms. Absher:

The City of Nehalem offers the following comments on the above-referenced applications:

Domestic water service extensions can be approved if they are "adequate to serve the subdivision." Nehalem City Code 51.09(B)(1). An evaluation for "adequacy" requires, among other things, a finding that they will "maintain a pressure of at least 20 pounds per square inch (psi) at all service connections at all times." OAR 333-061-0025.

The City recommends that the County approve the partitions subject to the following conditions, pursuant to the attached alternate performance bond agreement and extension agreement with the Applicant:

- 1) To ensure that pressure does not fall below 20 psi at higher elevations (above 120') in a fire or high flow situation, the Applicant must install a control valve, such as a pressure-sustaining valve, downstream from the last fire hydrant on Nehalem Point Drive. Specifications for the proposed valve, prepared by a professional engineer, shall be submitted to the City for review and approval.
- 2) Recent hydrant flow tests on the water main at the end of Nehalem Point indicated that the water main contains a large number of rocks within the pipeline left from previous construction. Flushing shall be required at each hydrant location within the subdivision. The Applicant shall be responsible for all flushing, which must be done in coordination with the City's Public Works Department.
- 3) Prior to recording the final plat, the Applicant shall install and secure the City's acceptance for the required water distribution improvements.

Thank you for the opportunity to comment on this application.

Sincerely,

Melissa Thompson-Kiefer  
City Manager

ALTERNATE PERFORMANCE BOND  
NEHALEM POINT, INC**

(Partition Request #851-21-000385-PLNG and #851-21-000386-PLNG)

I, Darryl Carter, am the President of Nehalem Point, Inc., an Oregon corporation. Nehalem Point, Inc. is the owner of the Nehalem Point Subdivision located in the Urban Growth Boundary of the City of Nehalem, Oregon. Nehalem Point Subdivision is ready to record its plat, which will allow it to sell the lots within the subdivision. As part of that process, there are two Partition Requests, #851-21-000385-PLNG and #851-21-000386-PLNG.

Under each of the Partition Plan Requests, the City is requiring that I install a control valve downstream from the last fire hydrant on Nehalem Point Drive. The specifications for the proposed valve must be prepared by a professional engineer and the specifications must be detailed and prepared and stamped by a professional engineer and must be approved by the City prior to installation. In addition, flushing needs to be done at each hydrant location within the subdivision by Nehalem Point, Inc. in coordination with the City's Public Works Department. These items need to be completed on or before June 1, 2022. These conditions are set forth in Exhibit B for Partition Plat #851-21-000385-PLNG and Exhibit C for Partition Plat #851-21-000386-PLNG.

I understand that the City will not provide zoning approval and will not provide water availability letters and will not allow any property to connect with the City's water system for either Plat, without these items being completed to the satisfaction of the City.

I understand that Nehalem Point, Inc. will pay for the above work. Upon completion to the City Manager's satisfaction, the City will instruct Albright Kittell PC, as the attorney for the City, to release the alternate performance bond amount deposited in the Albright Kittell Trust Account, to Nehalem Point, Inc. Further, Nehalem Point, Inc. will pay to the City \$945.00 at the time of signing of this agreement for the City's attorney's fees in preparing these documents.

I have deposited with Albright Kittell PC Trust Account, as the attorney for the City of Nehalem, the sum of \$33,775.50, by way of a cashier's check, as per the engineering estimate for the project cost, attached hereto as Exhibit A, for the purpose of securing the completion of my performance of this project, outlined in Exhibit B and in Exhibit C, pursuant to City standards and satisfaction. I am providing cash to cover the Engineer's estimate of the total cost of the project as set forth in Exhibit A, in lieu of providing a performance bond through an insurance company.

I understand that Albright Kittell PC is acting as the attorney for the City of Nehalem in this matter. I further understand that the funds deposited with Albright Kittell PC Trust Account will not be released to me until Albright Kittell PC receives written confirmation from the City Manager that all work required to be performed by me has been completed to the satisfaction of

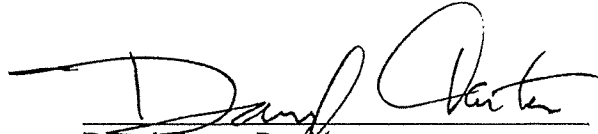

the City. Albright Kittell PC will release the funds to me at the address below, within 10 business days of its receipt of written confirmation that the project is complete and is in accordance with City standards.

By entering into this alternate performance bond agreement, I understand and agree that if I have not satisfactorily performed the work in Exhibit B and in Exhibit C, to the satisfaction of the City Manager of the City of Nehalem, on or before June 1, 2022, that I agree that the City may undertake the work described in Exhibit B and in Exhibit C and I consent and agree that the funds deposited at Albright Kittell PC Trust Account will be used to pay for the work. I understand that if there is excess money after payment of all the City's costs, including attorney's fees, the excess funds will be refunded to me. In the event that the funds in the Albright Kittell PC Trust Account do not cover all of the City's costs, including attorney's fees, for completing the work in Exhibit B and in Exhibit C, I understand that I will be billed for any excess charges by the City and that I will have 30 days to pay these charges. If the excess charges are not paid in full to the City within 30 days, then the City may assess me a late payment penalty of 5% of the balance owing for each month it continues unpaid.

In the event that there is any litigation as to the performance bond, or to the collection of any excess charge that may be billed, I hereby agree to pay the attorney's fees of the City of Nehalem incurred for collection and in the event that Albright Kittell PC needs to seek their own legal counsel, I agree to pay those attorney's fees as well, in the event that the City or Albright Kittell PC is the prevailing party, at trial, and on appeal.

I understand that Albright Kittell PC is only representing the City of Nehalem in this agreement and that I understand that this is a binding contract. I understand that if I have utilized the services of Albright Kittell PC in the past, that the firm is not representing me in regards to this Alternative Performance Bond Agreement. I have been advised to seek independent legal counsel to determine if I should sign this binding agreement.

**RE: Pressure Sustaining Valve Installation**

As per Kyle Ayer's, PE, this project requires the installation of a Pressure Sustaining Valve (PSV). This valve is required to maintain a minimum of 20 PSI in an upstream water main – Referencing Sheet 5 of 2007 Nehalem Point Unit #2 Project.

The table below show majority of the parts and labor required for a typical in-ground Pressure Sustaining Valve (PSV) in a concrete vault:

Item	Description	Quantity	Units	Cost	Total
1	Mobilization @ 5% of Project	1	LS	\$1,500.00	\$1,500.00

				Total	\$30,705.00
				10% Contingency	\$3,070.50
				Total	\$33,775.50

This is not the final part list or design for this installation. There are a few questions and design issues – that would require minor changes in material and layout – these would be referred to the City of Nehalem Public Works.

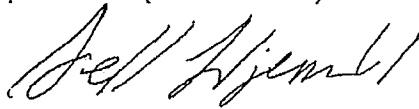

**Design Elements:**

- Concrete Vault
- Access via 36" Manhole Cover
- Vault in the existing road
- Cla-Valve Pressure Sustaining Valve – 8"
  - 8" matches the existing water main size.
  - Note this could be reduced to 6", based on existing flows and pressures.
- Ejector Pump for vault drainage
- Gate Valves for shut off – handwheels for use in the vault
- Dis-mantling ROMAC Coupling

Again, some of these design elements can be changed or eliminated to meet the needs of the City of Nehalem Public Works and State of Oregon requirements.

RE: Partition Request #851-21-000385-PLNG: Nehalem Point, Inc.

The City of Nehalem Public Works Department and City Engineer have reviewed the proposed partition and provide the following comments:

- 1) While the minimum 20 psi is available at the water main (or future water meter) locations, due to the elevation at the end of Nehalem Point Drive, the City requires that a residential water booster pump and double detector check valve be installed by the owner at each property. The double detector check valve and residential booster pump for each property must be designed by a plumbing contractor/designer and submitted to the City for review and approval.
- 2) To ensure that pressure does not fall below 20 psi at higher elevations (above 120') in a fire or high flow situation, the developer must install a control valve, such as a pressure-sustaining valve, downstream from the last fire hydrant on Nehalem Point Drive. Specifications for the proposed valve, prepared by a professional engineer, shall be submitted to the City for review and approval.
- 3) Recent hydrant flow tests on the water main at the end of Nehalem Point indicated that the water main contains a large number of rocks within the pipeline left from previous construction. Flushing shall be required at each hydrant location within the subdivision. The developer shall be responsible for all flushing, which must be done in coordination with the Public Works Department.

All water system improvements must be in place and accepted by the City prior to the recording of the plat.

Sincerely,

Melissa Thompson-Kiefer

**EXTENSION OF DEADLINE FOR COMPLETION  
REGARDING ALTERNATE PERFORMANCE BOND  
NEHALEM POINT, INC**

(Partition Request #851-21-000385-PLNG and #851-21-000386-PLNG)

Darryl Carter, President of Nehalem Point, Inc., an Oregon corporation and the City of Nehalem, an Oregon Municipal corporation, entered into an agreement for Instructions for an Alternate Performance Bond for certain work to be performed at the Nehalem Point Subdivision, which agreement is dated January 31, 2022.

Pursuant to the Agreement, Nehalem Point, Inc. posted a \$33,775.50 cash bond into the Trust Account of Albright Kittell PC for purposes of securing completion of the work set forth in that agreement.

The work was to be completed, to the satisfaction of the City, on or before June 1, 2022 and subsequent extensions, the last of which is to expire on October 15, 2022. It appears that additional time is needed to complete the project and the parties are agreeing to an extension of completion of the project until November 15, 2022.

Except as to the change of the completion date, all other terms and conditions of the Instructions for City of Nehalem Alternate Performance Bond remain unchanged and continue in full force and effect.

Dated this Oct 5, 2022 day of October, 2022.
