Cape Meares Road Relocation

Construction Activities & Upcoming Work

Surveying is currently ongoing, with clearing limits being set through the project. Tree falling operations will continue through next week. Heavy logging equipment will be working outside the gate on the north side of the project starting in February. Expect logging equipment coming in and out of the project entrances as timber hauling begins. Earthwork will begin in spring of 2022. The fixed construction completion date is October 31, 2023.

ROAD CLOSURES

Current road closure points will remain in effect on Bayocean Road near the Cape Meares Lighthouse, and approximately 0.5 miles south of the Lighthouse. Construction will have minimal impact on public traffic. Please be advised that project limits are outside the gate on Cape Meares Loop coming south from Bayocean Road.
