Cape Meares Road Relocation November 3, 2023

Construction Activities & Upcoming Work

The geofoam wall saw the completion of shotcrete application, chain link fence installation and drainage curb placement this week effectively finishing the wall. In addition, gates were installed by Tillamook County at both entries to the new Cape Meares Loop and drainage curbs were placed to protect Coleman Creek from water runoff. Truck traffic between the south project entry and the adjacent Lighthouse Quarry will be minimal through project completion, however, construction traffic is expected to be steady on the closed portion of the old Cape Meares Loop until project completion. Therefore, Tillamook County has prohibited pedestrian and bicycle traffic on the old roadway through project completion in Fall 2023.

ROAD CLOSURES

Current road closure points will remain in effect on Bayocean Road near the Cape Meares Lighthouse, and approximately 0.5 miles south of the Lighthouse. Construction will have minimal impact on public traffic as it is closed to through traffic. Please be advised that project limits are now designated by barricades on Cape Meares Loop, coming south from Bayocean Road. See map on the following page for areas not accessible to the public.
